

**2017 Anne Amie Cuvée A
Midnight Saignée Rosé of Pinot Noir
Yamhill-Carlton AVA**

Harvest
September 2017

Production
992 cases

Release Date
April 2018

Varietal Composition
100% Pinot noir

Vineyards
Anne Amie Estate
Twelve Oaks Estate

Soil Types
Willakenzie
Laurelwood

AVA – Willamette Valley

Alcohol – 12.3%

Total Acidity – 7.5 g/L

pH - 3.07

Residual Sugar – 0.36%

Midnight Saignée is a dry, deeply fruity wine, layered with complex Pinot noir character. A saignée requires timing and balance, and like much of harvest, the right moment often occurs late at night. We produce a limited amount of this wine each year, using the saignée technique and fermenting in neutral French oak barrels.

VINIFICATION

Grapes were hand-picked and brought directly to the winery in 1/2 ton totes in perfect condition. They were meticulously hand sorted on a shaker table then destemmed into 2-ton open top, stainless steel fermenters. The must was cold-soaked for five days. On the 2nd day of the cold soak all Pinot noir fermenters received a saignée (bleeding off a small percentage of juice) in order to concentrate flavors (and control alcohol levels). This rosé wine is a blend of all of our pinot noir saignée lots representing multiple vineyards and AVAs. Each lot was racked to neutral French oak barrels and barrel fermented using multiple yeast cultures. It was fermented to dryness and allowed to remain on the lees until blending. Each barrel was evaluated and only the finest were selected.

VINTAGE DESCRIPTION

After early bud breaks and warmer than average vintages in 2015 and 2016, expectations for 2017 were more of the same. Surprisingly, bud break came in the second half of April, two to three weeks later than 2015 and 2016, but typical timing for the northern Willamette Valley. May and early June wavered between showers and sun, which kept us guessing where 2017 was headed. Late June brought sunshine, clear skies, and warm temperatures that were ideal for flowering. By late July, crop estimates were showing that the average cluster was 25-30% larger than normal. This was the result of a warm initiation period in the summer of 2016, when the flowering structure is forming inside the bud, and the warm and dry flowering of 2017 that allowed for all the flowers to fertilize. August was busy with the crew reducing the crop, a heat wave in the 100s, and smoke hanging in the stratosphere from forest fires in the Columbia gorge. It looked like another hot end to a season and a sprint to harvest. However, temperatures returned to the low 80s and 70s in September, allowing flavors to build as Brix levels stabilized. Our sparkling blocks were picked in early September and still wine grapes were harvested from the end of September into the third week of October, just before the rains.

AROMA

red raspberry, pie cherry, strawberries and cream, baking spice, almond cookie

FLAVOR

Oregon strawberries, graham, pie cherry, red currant

FINISH

long, dry, acid driven

SUGGESTED PAIRINGS

roasted beet salad, grilled shrimp, salumi, popcorn, bacon wrapped dates, chèvre, friends, a beautiful day

Anne Amie is fully committed to sustainable farming and winemaking. The Anne Amie winery and all Anne Amie Estate Vineyards are Salmon Safe or LIVE certified.
